Projects

2023/02 – 2023/02

PORTFOLIO [🔗](#)

User Responsive Template

I completed a web development portfolio using HTML, CSS, JavaScript, and jQuery, hosted on GitHub Pages. With GitHub Desktop, I updated and managed the portfolio, showcasing my skills and experience to potential employers and clients.

2023/02 – 2023/02

CALCULATOR [🔗](#)

User Responsive Template

The objective of this project was to develop a basic calculator with a responsive web design, facilitating straightforward arithmetic calculations on any device. The goal was to offer users an intuitive, easy-to-use tool for rapid calculations while on the go, thus replacing the need for a physical calculator. The project was successfully completed, and the calculator has been deployed, now accessible for user convenience.

2023/04 – 2023/03

STOPWATCH [🔗](#)

user Responsive Template

This project involves the development of a stopwatch using HTML, CSS, and JavaScript, which has been deployed on GitHub for public access. In addition, the content of the project has been updated using GitHub Desktop, a tool that facilitates repository management from a desktop computer. The project showcases proficiency in web development technologies and effective utilization of GitHub for version control and content management.

Education
